IN THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Currently Amended) A correction device ~~(12)~~ for correcting text passages in a recognized text information ~~(RTI) which recognized text information (RTI) is~~ recognized by a speech recognition device from a speech information, the recognized text information and ~~which is therefore~~ being associated to the speech information, the correction device ~~(12)~~ comprising:

reception means ~~(13, 14)~~ for receiving the speech information and the associated recognized text information ~~(RTI)~~ and a link information, ~~which~~ wherein the link information at each text passage of the associated recognized text information ~~(RTI)~~ marks ~~the~~ a part of the speech information at which the text passage was recognized by the speech recognition device, and a confidence level information ~~(CLI)~~, ~~which~~ wherein the confidence level information

(CLI) at each text passage of the recognized text information (RTI) represents a correctness of the recognition of said text passage and comprising

synchronous playback means (14) for performing a synchronous playback mode, in which synchronous playback mode wherein during an acoustic playback of the speech information the text passage of the recognized text information (RTI) associated to the speech information just played back and marked by the link information is marked synchronously and comprising indication means (16) for indicating the confidence level information (CLI) of a text passage of the text information during the synchronous playback, wherein the playback means change a playback speed during the acoustic playback in dependence of the confidence level information.

2. (Currently Amended) A The correction device (12) as claimed in claim 1, in which wherein the indication means (16) are constructed for indicating indicate the confidence level information (CLI) of the text passage just played back.

3. (Currently Amended) A The correction device (12) as claimed

in claim 1, ~~in which~~ wherein the indication means ~~(16) are~~
~~constructed for indicating~~ indicate the confidence level by means
of a visual indication.

Claim 4 (Canceled)

5. (Currently Amended) A ~~The~~ correction device ~~(12)~~ as claimed
in claim 1, ~~in which~~ wherein the indication means ~~(16) are~~
~~constructed for indicating~~ indicate the confidence level
information ~~(CLI)~~ of phrases.

6. (Currently Amended) A correction method for correcting text
passages in a recognized text information ~~(RTI) which~~, wherein the
recognized text information ~~(RTI)~~ is recognized by a speech
recognition device from a speech information and ~~which~~ is ~~therefore~~
associated to the speech information, ~~in which the following steps~~
~~are performed~~ the method comprising the acts of:

receiving the speech information and the associated recognized
text information ~~(RTI)~~ and a link information, ~~which~~ wherein the
link information at each text passage of the associated recognized

text information ~~(RTI)~~ marks ~~the~~ a part of the speech information

at which the text passage was recognized by the speech recognition

device, and a confidence level information ~~(CLI)~~, ~~which~~ wherein the

confidence level information ~~(CLI)~~ at each text passage of the

recognized text information ~~(RTI)~~ represents a correctness of the

recognition of said text passage;

performing a synchronous playback mode, ~~in which synchronous~~

~~playback mode~~ wherein during acoustic playback of the speech

information, the text passage of the recognized text information

~~(RTI)~~ associated to the speech information just played back and

marked by the link information is marked synchronously;

indicating the confidence level information ~~(CLI)~~ of a text

passage of the text information during the synchronous playback;

and

changing a playback speed during the acoustic playback in

dependence of the confidence level information.

7. (Currently Amended)   ~~A~~ The correction method as claimed in

claim 6, in which an indicating of the confidence level information

~~(CLI)~~ of the text passage just played back is performed.

8.(Currently Amended)   A—The_correction method as claimed in claim 6, in which the indicating of the confidence level information -(CLI)-is performed by means of a visual indication.

Claim 9 (Canceled)

10.(Currently Amended)   A—The_correction method as claimed in claim 6, in which at the indicating of the confidence level information -(CLI)-the indication of the confidence level information -(CLI)-of phrases is performed.

11.(Currently Amended)   A computer program product for a computer (1a), comprising software code portions for performing the steps of claim 6 when said product is run on the computer (1a) readable medium embodying a computer program, the computer program when executed by a processor is configured to perform the acts of claim 6.

Claim 12 (Canceled)
